- Skin problems such a scars, burns, acne, rashes and wrinkles fade and heal via the far infrared therapy which stimulates tissue regeneration. Some people have experienced the fading

of age spots.

FIR TOPICAL WARMING UNIT ENJOY THE COMFORT AND BENEFITS OF FIR TECHNOLOGY - FEEL TERRIFIC, TOO!

Within the magnetic spectrum, some rays, such as light, can be seen by the unaided human eye. Most, however, are totally invisible to us. Far Infrared Rays (FIR) are well beyond the ability the naked eye to see. FIR can gently and delightfully provide a warm comfortable feeling. That not all! FIR can actually give the body a feeling of well-being. Needless to say, now that FIR outstanding properties are gaining worldwide recognition and acclaim, we are beginning to see it appear in a wide variety of applications.

WARM, COMFORTABLE, FEELS SO GREAT ----ENJOY IT ALL, AND BEST OF ALL, ENJOY IT AT HOME, TOO!

The FIR Topical Warming Unit (Hot House® produces its unique effect through radiant FIR heat. Its unique arched design enhances the thermal-effect. You get total enjoyment - it is easy to use and very comfortable. It makes you feel absolutely terrific. Why are we hearing so many wonderful and positive things from the many devoted users of the Hot House® Because the Hot House® really works - and it's simple and convenient to operate. If you are looking for a perfect adjunct to massage and other manipulative modalities, the Hot House® is for you.

Manufactured under a Japan technology patent, The Hot House® has earned popular and professional acclaim in Japan after many years of successful use and is classified as a Class 2 Medical Device in Canada.

SPECIAL FEATURES:

The Importance of 8~10 micron Far Infrared Ray:

Normal human body temperature is 98.6 degrees. Most of our body heat is typically radiated away as far infrared at the 8 ~ 10 micron wavelength. (That is why a room full of people becomes warm.) So, if we generate 8 ~ 10 micron far infrared and direct it at a human body, it matches the radiant energy leaving the body and is best for the body overall comfort.

Why the Warm, Comfortable Thermal Feeling?

The upper Radiant Heating Surface is covered with a very fine multi-faceted acute-angle silicon surface manufactured in New Mexico. When rays are scattered in all directions by the countless surfaces created by the silicon crystals, the effectiveness of the 160-degree span is amplified. The radiant transmission area is increased some 10-fold. It simply wouldn't be possible to produce the effective warmth we achieve without the combination of these two design concepts: proper wavelength and a special reflective silicon surface.

Electronically Controlled & Safety Feature:

The surface temperature is automatically controlled by a built-in, specially designed regulator, which only allows a set temperature while a safety device precludes any chance of overheating from a malfunction.

Simple To Operate:

The SUN HARMONY FIR Topical Warming Unit, (HotHouse®), provides its warmth without ever having to touch the skin. Just set the timer and relax. It consumes a mere 5 cents worth of electricity per hour.

Small and Portable:

This is NOT like the huge FIR instruments you may have seen elsewhere. Ours is entirely new and sized just right for home use. You will be thrilled with the unique qualities of the HotHouse®. It is a must for your home!

1. A Wider 160-Degree Heating Surface:

The 160 degree arched design greatly increases warming coverage. This unique design is the hallmark of the HotHouse®.

DIRECTIONS:

Maximum: 15-60 minutes, twice daily. You will experience warmth and comfort. Use it on regular basis. A very slight reddening of the skin is normal. The feeling you get is much like that from a good massage.

WARNING: This device should NOT be used if you have any acute diseases, open sores, a serious heart condition, are using a pacemaker, or have serious high blood pressure.
