# Health Renewal & Healing Center

Treatment For Health ; & For Cancer Healing.

All treatments are individualized to each person. Everyone's body and DNA are different from anyone else in the world. In natural medicine the mindset should not be "one size fits all". Typical of allopathic medicine.

Life with renewed health. Sure to inspire your family.

We also do not believe that you can put a Band-Aid on the symptom; you have to get to the root cause, heals you or keeps you in remission! Maintaining a healthy endocrine system, maintains a healthy body. A major focuses during treatment is building a healthy immune system, implementing anti-tumor, anti-inflammation protocols, and detoxification. Our goal is to build up the body as we destroy cancer cells and balance out the body by detoxification methods in order to rid the body of cancer waste. It is very important to keep a good balance. Treat hormone deficiencies . Studies show that about 90% of cancer patients have sub clinical thyroid deficiency. DHEA & melatonin are also low in most cancer patients and many others with chronic diseases. Restore a healthy "internal milieu," or connective tissue, function.
